

## **CHAPTER 12 REVIEW**

1. Give four reasons why you might have reduced visibility.
  
  
  
  
  
  
  
  
  
  
2. Explain what to do if an oncoming driver has his high beam lights on?
  
  
  
  
  
  
  
  
  
  
3. True or False high beam headlights are used to give better visibility during rain, snow or fog?
  
  
  
  
  
  
  
  
  
  
4. Explain “overdriving headlights”.
  
  
  
  
  
  
  
  
  
  
5. Explain the new law about windshield wipers.
  
  
  
  
  
  
  
  
  
  
6. When your visibility is reduced for any reason, you need more \_\_\_\_\_ to use the IPOE process.

- 7. When rain first starts falling, the roadway becomes very slippery. (Explain why)**
  
  
  
  
  
  
  
  
  
  
- 8. Explain Hydroplaning.**
  
  
  
  
  
  
  
  
  
  
- 9. After driving through deep water be sure to check your \_\_\_\_\_?**
  
  
  
  
  
  
  
  
  
  
- 10. Some of the worst traction conditions occur at what temperature?**
  
  
  
  
  
  
  
  
  
  
- 11. Explain what “rocking your car” is.**
  
  
  
  
  
  
  
  
  
  
- 12. Give three situations where ice may occur.**

## Chapter 12 Review-Adverse Conditions

13. Give three roadway surfaces which cause poor traction.
14. When the front of our car starts to skid to the left, you counteract by turning to the \_\_\_\_\_.
15. What does "ABS" stand for?
